DETAILED ACTION

Response to Amendment

1. This is in response to an response filed on October 28th, 2009.
2. No claims have been amended.
3. No claims have been cancelled.
4. No claims have been added.
5. Claims 1-22 are currently pending.

Reasons for Allowance

6. The following is an examiner's statement of reasons for allowance:

For independent claim 1, the prior art fails to show alone or in combination a processor comprising a split transmit and receive media access controller having a transmit unit and a receive unit physically separated from one another wherein the first and second split transmit and receive media access controllers have respective distinct addresses encoded by particular values of information bits sent over the interface and the processor decodes said information bits so as to distinguish a first signal sent between the transmit and receive units of the first split transmit and receive media access controller from a second signal sent between the transmit and receive units of the second split transmit and receive media access controller.

The prior art of Amit (U.S. Patent 7,197,045) discloses a first integrated circuit containing multiple MAC receivers and a second integrated circuit containing multiple MAC transmitters (*see figures 4-6*). The prior art of Stark et al. (U.S. Patent 6,963,535) disclose a

Art Unit: 2464

MAC bus interface that multiplexes signals from a plurality of MAC entities (*see figures 3, 8, and 9*). However, Amit and Stark et al., alone or in combination, fail to specifically disclose that the first and second split transmit and receive media access controllers have respective distinct addresses encoded by particular values of information bits sent over the interface and the processor decodes said information bits so as to distinguish a first signal sent between the transmit and receive units of the first split transmit and receive media access controller from a second signal sent between the transmit and receive units of the second split transmit and receive media access controller. For the reasons provided above, claim 1 is allowed. Independent claims 17-19 are allowed for similar reasons. Dependent claims 2-16 and 20-22 are allowable because they depend on the allowed claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
